

Instructions:

1. Click on File -> Make a copy

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	MathTutor	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?

• User input for the answer to the math problem (<code>userAnswer</code>) via <code>Scanner</code> (<code>userinput</code>)	1. Generate two random integers from 1 through 10 (<code>randomnum1</code>, <code>randomnum2</code>). 2. Randomly select an operator (+, -, *, /). 3. Calculate the correct answer (<code>correctAnswer</code>) based on the operator. 4. Compare <code>userAnswer</code> with <code>correctAnswer</code> using an <code>if-else</code> statement.	• The generated math problem prompt (e.g., <code>what is 2 * 9?</code>) • Success message (<code>Correct!</code>) or correction message showing the correct answer.
